

# JOHN'S WISH-LIST

---

**\$20 DOESN'T SEEM LIKE A LOT BUT EVERY DOLLAR COUNTS WHEN TRYING TO MAINTAIN A VENUE WITH SO MUCH CHARACTER.**

**HOW ABOUT GETTING SOME FRIENDS TOGETHER TO MAKE CREATIVE DREAMS COME TRUE?**

## **THEATRE WORKS LAUNDRY - \$50**

It may come as a surprise but we don't have a washing machine or dryer at Theatre Works. As much as we love the sneaky coffee at the Galleon while we watch costumes roll around in the massive dryer, the not-so-fun part is finding the change to feed the washing monster. If you and a few friends could scare up some \$50 donations, we will get a monster of our own.

## **THEATRE WORKS MUSIC LOVER - \$100**

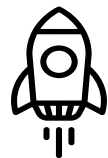

Ever wish you could see some great live music at Theatre Works? We sure do!! A few \$100 donations would get us a long way towards making this dream come true. With new microphones and new speakers we won't know ourselves. But maybe we should keep the sticky carpets to stay true to our old St Kilda style band room roots??

## **THEATRE WORKS BAR HOUNDS - \$200**

Recently we completed Phase One of our foyer upgrade and after a lot of amazing feedback, we would like to now raise the bar (excuse the pun). A few \$200 donations would see us hire a set designer and bring in some of our construction friends for a total revamp. Looks that only Theatre Works can provide: bigger, better, brighter, with quicker service and more variety.

## **THEATRE WORKS LIFTER - \$500**

To reach new heights in the venue, Theatre Works requires a new lifter. Your \$500 donation will help go towards a new elevated work platform. Last year our old EWP lifted over 50 people (not at the same time!!) and did over 500 hours. After ten years that old EWP needs to go off to the farm and spend its last days with other EWPs swapping high-level war stories.

## **THEATRE WORKS PRODUCTIVITY OFFICERS & TECHIE FRIENDS**

Nobody knows Theatre Works better than our amazing technicians. Being the best techies in the business requires the best tools. Anything you could donate will help: new desks, new (safe!) tools, computers and software to help our artists produce the amazing works we love.
